# Executive Summary

This document provides the latest statistical information about the Ontario Conference and details of the strategic plan for 2023-2028. It is presented in three parts. The first section highlights the consistent membership growth in each of the 11 regions of the Ontario Conference (pages 7-16). Enrollment patterns in the Adventist School system are also shown. There are 825 students in 2023, marking the highest cumulative enrollment in years.

The second section addresses challenges to continued growth in the Conference (pages 29 and 31). The Strategic Planning Committee prayerfully reviewed these challenges and established “Foundational Pillars” to help lead the Conference forward in line with our Mission and Vision Statements (pages 34-35). Based on these considerations, the Committee established goals for the Ontario Conference (pages 36-37).

The Third section shows how each department will align with the 2023-2028 goals. There are three subsections:

- They state their mission to achieve Conference goals.
- They state an audacious goal. These are goals not based on skill or ability but reliance on the power of the Holy Spirit to achieve them.
- They list their “Top Outcomes,” which shows the specific path toward realizing these ambitious goals.

# A Message from The President

It is with joy and anticipation that we introduce the strategic plan that will guide the Ontario Conference on our collective journey toward fulfilling the mandate of the Great Commission. As we stand on the brink of a new chapter, we are excited to present a roadmap that encompasses the essence of “Connecting Like Jesus”.

At the heart of our vision lies a commitment to change as we engage in ministry and mission through four foundational blocks: spiritual, service, share and servant. Departmental goals, outcomes, and a robust action plan are meticulously outlined in our Strategic Plan document, all aligned with a singular purpose – to strengthen our mission and deepen our connection with God, each other, and our communities.

In these strategic initiatives, we find the pathway to be more intentional, purposeful, and effective as we prepare for the imminent return of our Saviour. Let us prayerfully embark on this journey together, united in purpose, inspired by our shared vision, empowered by the Holy Spirit, and propelled by the boundless love of Christ.

In His service,

# A look at the Ontario Conference

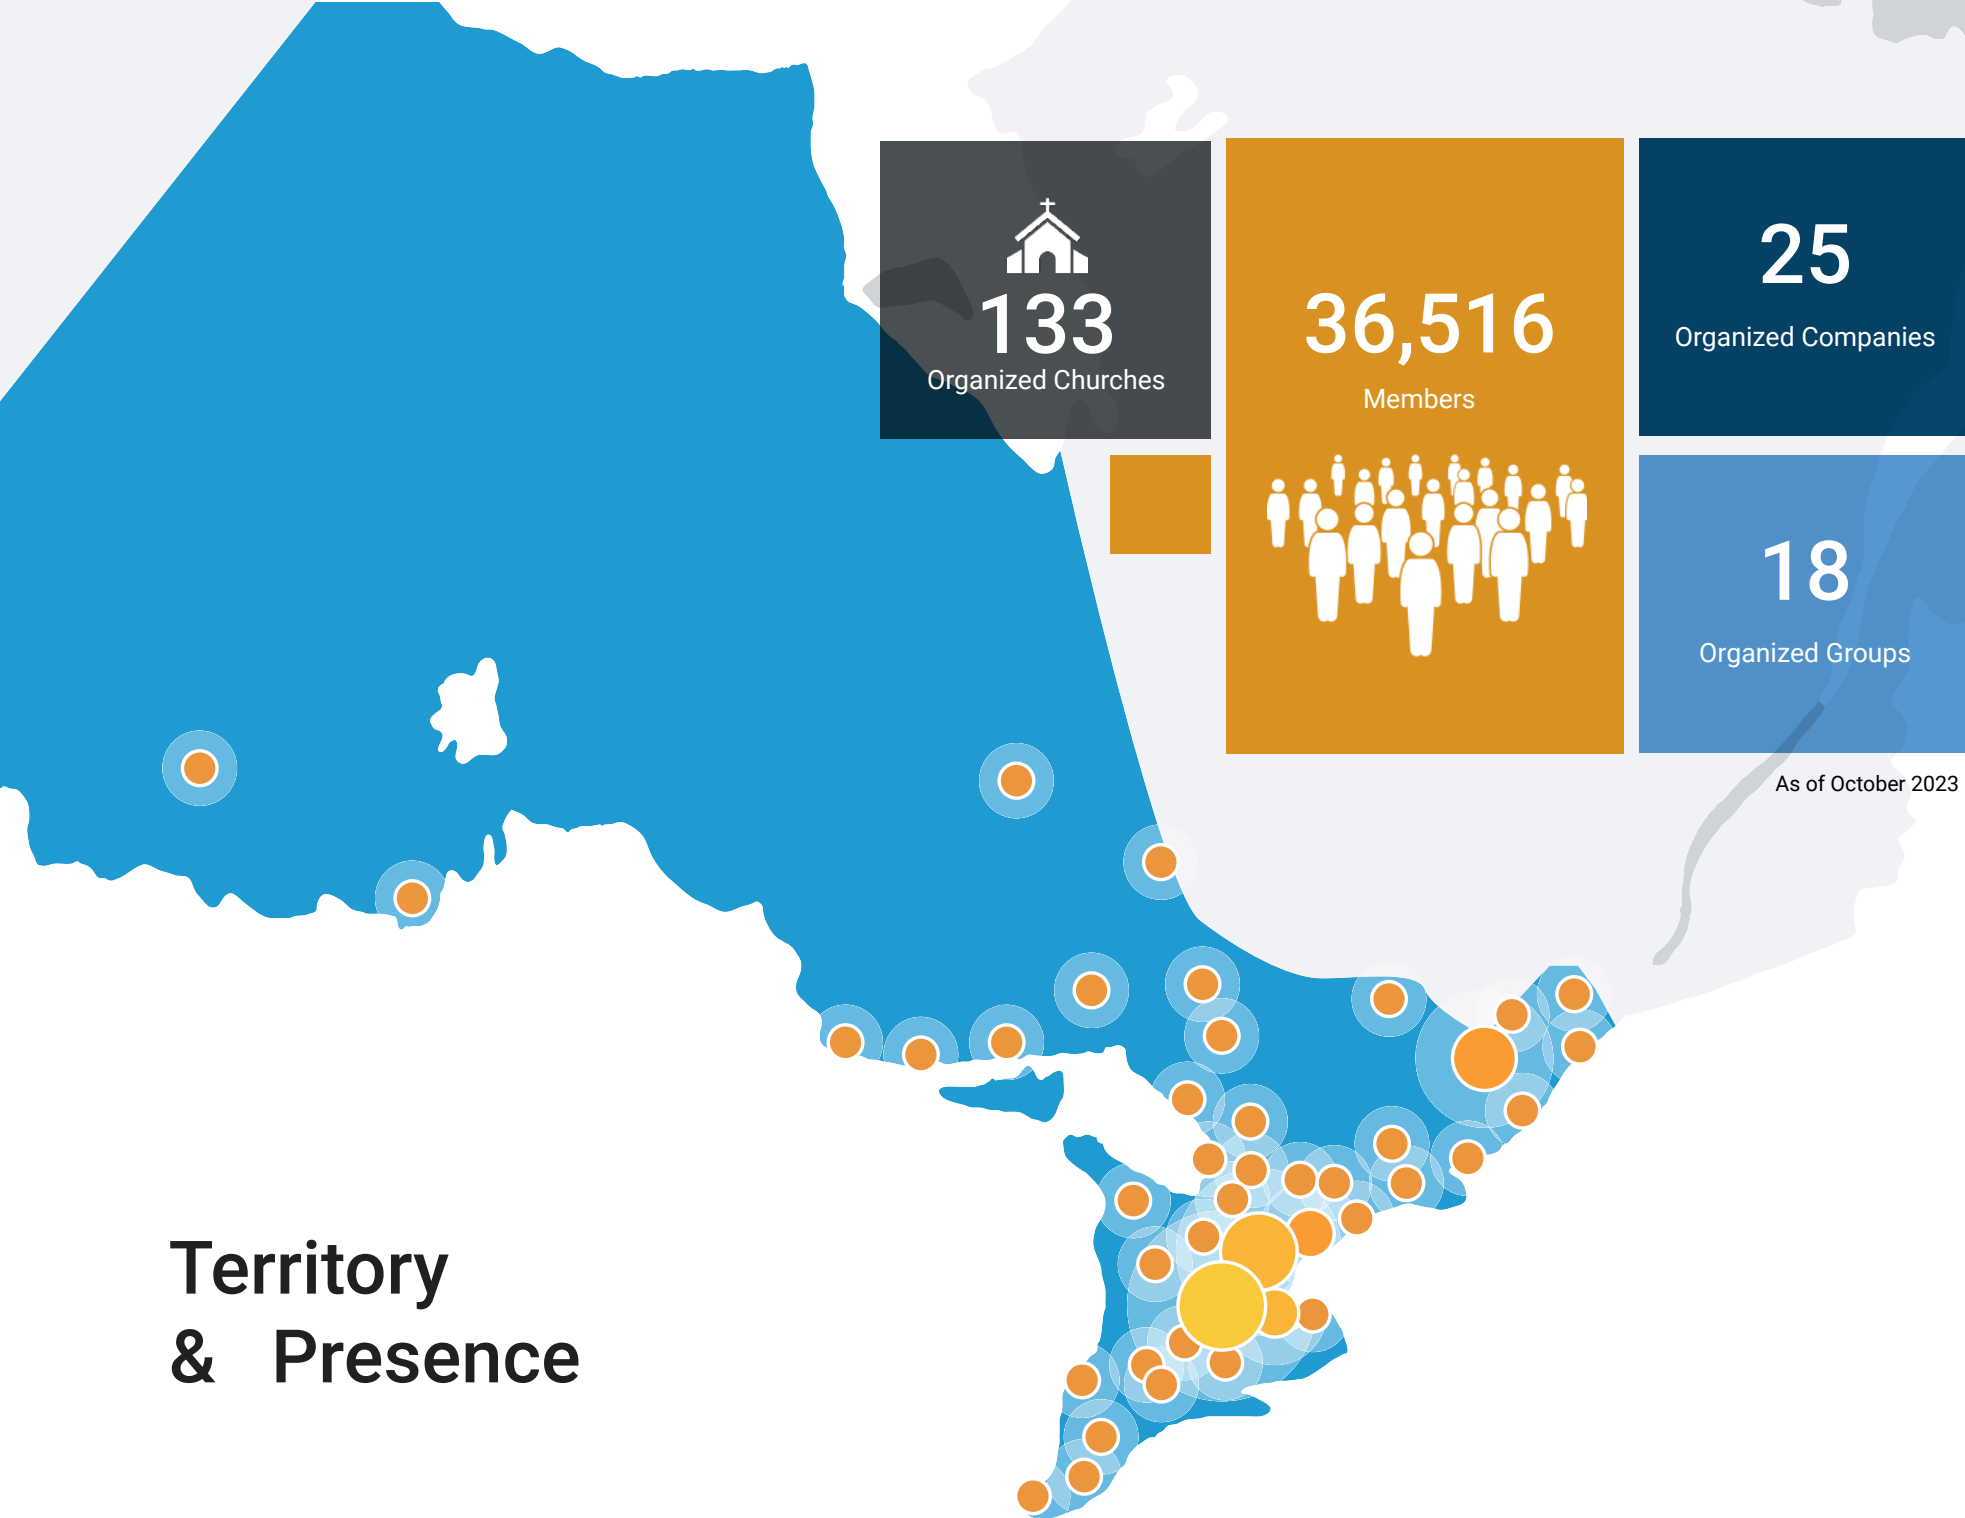

**The Ontario Conference of the Seventh-day Adventist Church has been in existence in the province of Ontario for more than 120 years. It is the largest of the seven conferences in Canada.**

It had a small beginning, but the audacious vision of the pioneers and the ministry of its members over the years caused it to grow to what it has become today. The information that follows only gives us a glimpse of what the Almighty God has done for us, in us and through us.

**Adventist Christian Philosophy of Education**

**“True education means more than the pursuit of a certain course of study. It means more than a preparation for the life that now is. It has to do with the whole being, and with the whole period of existence possible to man. It is the harmonious development of the physical, the mental, and the spiritual powers.”**

Ellen G. White, *Education*, p. 13.

## Education and the Seventh-day Adventist Church

Adventist education stands as a cornerstone in the Seventh-day Adventist Church. The church's educational system has been instrumental in molding generations of individuals who are not only academically proficient but also spiritually grounded.

Ellen White, a pioneer in the early Adventist movement, emphasized the importance of education, stating, "In the highest sense, the work of education and the work of redemption are one" (Education, p. 13).

With this profound insight, the Ontario Conference of the Seventh-day Adventist Church established schools throughout Ontario, emphasizing the integration of faith and learning.

These institutions were designed to nurture young minds with a strong spiritual foundation, preparing them for a life of service and purpose.

## Education in the Ontario Conference

### 1 High School

An Adventist Christian high school is crucial for a high-quality education coupled with a strong spiritual foundation, setting the stage for a bright academic excellence.

### 8 Elementary Schools

The presence of Adventist education in elementary schools is a blessed endeavor, nurturing young hearts and minds with the essence of spiritual wisdom and academic excellence, laying a sacred foundation for their lifelong journey in faith and learning.

# Ontario Conference Moving Forward

---

“We have nothing to fear for the future except as we shall forget the way the Lord has led us, and His teaching in our past history”

Ellen G. White, Last Day Events, p. 72.

**Challenge:**

An assessment of the vitality of churches in the Ontario Conference revealed that 55% our congregations are plateauing and declining, while there is a lack of multiplying congregations.

## ● Navigating Growth Disparities

### Strategies for Church Development in Our Conference

In our journey as a Conference, it is essential to acknowledge that not all churches within the Ontario Conference are experiencing the same upward trajectory. Understanding the nuances of this disparity is crucial for our collective progress. The data at hand sheds light on the challenges we face and, more importantly, points us toward the solutions required to address these issues effectively. This information serves as a critical tool in helping us identify and understand the obstacles that hinder the growth of certain churches within the Ontario Conference. By recognizing these challenges, we can work collaboratively to bridge

the gap between the churches that are flourishing and those that are facing stagnation. As we open the front door of our churches to welcome God’s children, it becomes equally imperative to focus on closing the back door, ensuring that once individuals enter our congregations, they find a supportive and nurturing environment that encourages them to stay and grow in their faith journey. This introspection and strategic planning are essential steps toward fostering a Conference where every church flourishes, ensuring that the growth we achieve is inclusive and sustainable.

# Ontario Conference Congregational Church Health (NCD) Summary for the year 2022

Natural Church Development (NCD) is a way of measuring the health or quality of a church. By using a carefully prepared questionnaire with 30 members of a church, the survey will determine the health of the church in eight critical areas. The following infographic represents the average NCD result for the Ontario Conference in the year 2022:

The infographic highlights the dichotomy between opening the front door to draw people to Christ and closing the back door to maintain their engagement within the church community. Notably, our churches excel in opening the front door, showcasing effectiveness in attracting new members. However, the data reveals that we are below average in closing the back door, indicating challenges in retaining individuals and fostering their long-term involvement within the church. This disparity underscores the need for targeted strategies to enhance retention efforts, ensuring that once individuals enter our congregations, they find a supportive and nurturing environment that encourages their continued growth and active participation in the faith community.

## NCD Quality Characteristics:

### Opening the front door:

- Inspiring Worship Services
- Need-oriented Evangelism
- Gift-based Ministry
- Effective Structures

### Closing the back door:

- Empowering Leadership
- Passionate Spirituality
- Holistic Small Groups
- Loving Relationships

# Ontario Conference Church Health (NCD) Comparison Summary for the years 2017 - 2022

The conference-wide study included over 70 congregations who conducted the NCD's church health assessment concerning the following eight areas in ministry: Passionate Spirituality, Need-oriented Evangelism, Gift-based Ministry, Inspiring Worship Service, Empowering Leadership, Effective Structures, Loving Relationships and Holistic Small Groups. The study revealed that the maximum factors were Need-oriented Evangelism and Passionate Spirituality, while the minimum factors remained Holistic Small Groups (HSG) and Loving Relationships (LR). **All eight Quality Characteristics were 50 or higher, and the overall health score of 58 is well above the average in Canadian churches.**

To initiate our God-given potential of growth, we must address the obstacles to growth by improving our growth factor. The obstacles to growth represent the low points on the curve in the infographic above. In our congregations, we must reflect Christ's character in our relationships and be more trusting, loving, kind, and humble.

## Growth Projection

### Ontario Conference Membership Growth Projection for 2028

By imitating Christ in our families, conducting our everyday activities and relating to others like Jesus, we will be blessed by growth in our personal affairs at home; our churches will experience a culture shift that will release the God-given potential of multiplication and disciple-making. The projected membership goal for the ensuing quinquennium is to

experience a 3.5% annual net growth, which will lead to an increase in our membership to 44,000 by June 2028.

We pray that by God's grace, with the guidance of the Holy Spirit, and through the collaboration of all Ontario Conference entities and its members, our goal will be accomplished.
